Fire Chief H. S. Chambers has removed his family from the house on the corner of South and Wata streets, which they have occupied for some months, to one of his own houses, 317 Daugherty street.

They say the food and service at the Ocala House dining room is fine. The proof of the pudding is in chewing the bag. 23-tf

In the baseball season, a boy often insists that his grandmother is alive. One of our popular young men declares that his grandmother is very much alive this Christmas; at any rate when he was found buying an \$18 toilet case, he declared it was to be a Christmas present for that ancient and venerated lady.

Prof. Freeman and his assistant will give the following artistic dance program at the hospital entertainment, this evening.

Pavlova Gavotte, the Brazilian Dream, Tango, The Lulu-Fado, Maxixe.

Derrill Pratt, first baseman of the St. Louis American baseball team, yesterday received an offer of a Federal League contract, which he refused. Mr. Pratt, who is spending the winter here, received a telegram yesterday from Manager Schlafly of the Buffalo Bisons, asking if he was in a position to sign with the outlaws. He replied that he was under contract with St. Louis for another year and could not jump. It is understood that the Federals made Mr. Pratt a flattering offer, the acceptance of which was only prevented by the iron-class contract with he has with the Browns.—St. Petersburg Times.

Mr. John McCorkle is in great sadness these days. His pet rooster, the fowl which had more voice stored away in him, and could release it with greater effect than any other bird in the bawliwick, is dead. Next to the fire alarm, the courthouse clock and the Presbyterian church bell, this chicken could be heard further than anything else in Ocala.

Holiday gifts, just lots of them, at KREGER'S. 3-tf

Among the heroes at the K. of P. supper last night were Lester Marsh and Dr. J. H. Dunn. These self-denying Knights tramped all day Saturday and went without their dinners in order to obtain birds for the supper. Their faith was greater than their works, for they shot only four birds, but as only six were accommodating enough to cross their line of fire they did better than some of the rest of us.

**Survival of Superstition.**  
Madagascar natives have a strange idol. It is a piece of wood covered with silk and attached to a wire which the priests pull in a certain way. The god performs movements in all directions, to the great terror of the faithful, who believe it is really alive. The priests dwell in houses of wood, as the god will have neither stone nor brick. To distinguish themselves from the other natives, the faithful wear their hair rolled in curl-papers like women, and keep it in the shape of a horn by means of pins.

## MRS. WILL LEE

Mrs. Emma Lee, wife of Mr. Will Lee, died at her home in the Burnett building, corner South First and Magnolia streets, at 1:30 this afternoon.

Mr. and Mrs. Lee are from Indiana, and came to Ocala some years ago. About a year ago they went to Jacksonville and had only been back here a couple of weeks. Mr. Lee has been in the restaurant business and he and his wife have made many friends, who deeply regret the young wife's sudden death. She had been sick only a few days.

The funeral arrangements are in charge of Wilbur Smith with E. C. Jordan & Co., but are not known at this hour.

## HOSPITAL NOTES

Mrs. H. M. Hampton will return to her home tomorrow.

All other patients are improving.

Mr. Robert Moorhead, who is making a splendid record at the University of Florida, Gainesville, will return home for the holidays.

After several days visit to Ocala, which was pleasant both to him and the friends he met here, Dr. A. W. Lamar left this afternoon for his home in Atlanta. His lecture at the Baptist church last night was most interesting and well attended.

## Incendiary Rabbit.

A Walla Walla man is charged with endeavoring to annihilate a rabbit colony with the aid of a pint of kerosene and a lucifer match. A rabbit was soaked in the liquid and touched off with a match. Whereupon, with a beautiful understanding of the fitness of things, the blazing creature burrowed into the nearest haystack, while thousands of amused rabbits sat around and watched the fun. No insurance.—Cleveland Plain Dealer.

## CHAMBERLAIN'S COUGH REMEDY—THE MOTHER'S FAVORITE

"I give Chamberlain's Cough Remedy to my children when they have colds or coughs," writes Mrs. Verne Shaffer, Vandergrit, Pa. It always helps them and is superior to any other cough medicine I have used. I advise anyone in need of such a medicine to give it a trial." For sale by all dealers. Adv.

## Scarcity of Boy Laborers.

Boy labor is very scarce in New Zealand, and some manufacturers and girl labor almost equally scarce. A member of a firm of baking powder manufacturers in the Dominion advertised unsuccessfully a few months ago for boys and girls, and had to employ adult labor instead. So precious are these young people, indeed, that it is found that the only way is to take boys when they are offering, usually at the beginning of the year, and keep them through slack seasons. This particular firm gives boys straight from school \$3 a week to start, and by the time they have been at the factory a year or 18 months they get \$5. Boys of fourteen in the boot trade in New Zealand get \$3 a week to start with.

## Daily Thought

Be cheerful, and seek not eternal help, or the tranquillity which others give. A man must stand erect, and not be kept erect by others.—Marcus Aurelius.

X'mas boxes, tags, seals, all shapes and sizes. "THE DENNISON KIND" at KREGER'S. 3-tf

Board of Trade tomorrow night.

## A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Pines, Ala.—"I must confess," says Mrs. Eula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good."

Before I commenced using Cardui, I would spit up everything I ate. I had a tired, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit spitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight."

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

For half a century, Cardui has been relieving just such ills, as is proven by the thousands of letters, similar to the above, which pour into our office, year by year. Cardui is successful because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, and will help you, too. Get a bottle today. You won't regret it. Your druggist sells it.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. NC 126

## MENDEL'S LAW.

Shown in the Crossing of Pure Yellow and Pure Green Peas.

The following beautifully clear summary of the principles of mendelism is due to the Rev. W. Wilks, the famous horticulturist, who developed the Shirley poppy:

If you cross pure yellow and pure green peas either way—it matters not which is seed bearer and which pollen bearer—you will get all yellow seeds. If you sow these hybrid seeds, each will, if it germinates, produce a plant which will bear, say, forty seeds, thirty of which will on the average be yellow and ten green. The green, if sown and sown and sown for countless generations, will always bear green seeds true to the original green parents, barring the always possible intervention of insects.

Not so the thirty yellow. These when sown will on the average produce ten plants bearing all pure yellow seeds, which will be constant and true to the original yellow parent for countless generations. The remaining twenty plants will be impure yellow, each plant producing, on the average, one quarter of its seeds pure yellow, one quarter pure green and one-half impure yellow, which last will repeat the process and proportion practically forever.

This is the law of inheritance which is the basis of all the studies of the eugenis and, in fact, of all breeders of animals and plants.—New York World.

## Cause of One War.

William the Conqueror lost his life in France through his horse trampling on a red hot cinder while he was superintending the burning of Mantes, but few people know the fact which gave rise to the campaign that cost William his life.

During the latter part of his reign he became abnormally stout and consequently the laughing-stock of not only his subjects, but his neighbors across the water. One day his contemporary, Philip of France, compared him to a fillet of veal on casters and suggested that he should be exhibited at a prize monarch show. This so enraged William that he straightway made war upon his ridiculer, and the loss of thousands of lives was the result.—London Tit-Bits.

## New Shell Bursts in Air.

A French army man has invented a shell which, when fired from a 75-caliber cannon, will explode in the air instead of having to come in contact with something before bursting. The invention was devised by Commandant Mialandou of the general staff of Paris. It is said that the new shell increases the range of effectiveness in aiming at the enemy's fortress or in the field of battle. French artillery authorities state that the new invention practically doubles the value of the 75-caliber cannon. The missile will undoubtedly be standardized and used by all of the French army men.

## His Idea of Music's Use.

He was a lover of music who had just been to hear one of the great operas, and he was expatiating upon its beauties to an unresponsive friend, whom he observed to yawn. The music lover was hurt. "Look here, John," he protested, "don't you think music is of some practical benefit in life?" "Oh, yes," said the unresponsive one. "Why, judging from the portraits I have seen of eminent musicians, especially pianists, I should say that music is great to keep the hair from falling out."
